Netspective SOC 2 Type 2 Report

Audit Period: January 1, 2025 – December 31, 2025

1. Executive Summary

This SOC 2 Type 2 report provides an independent audit assessment of Netspective’s control environment for the period January 1, 2025 – December 31, 2025. The audit evaluates the design and operational effectiveness of Netspective’s controls in alignment with the Trust Services Criteria (TSC):

Trust Services Criteria	Definition	Key Metrics
Security	Protection of systems and data from unauthorized access	100% system uptime, zero unauthorized access incidents
Availability	Ensuring system availability per commitments	99.98% uptime, maximum downtime of 10 minutes per quarter
Processing Integrity	Ensuring data processing is complete, valid, accurate, and timely	99.99% processing accuracy, average response time: 150ms
Confidentiality	Safeguarding sensitive information	AES-256 encryption used, zero data breaches
Privacy	Ensuring compliance with privacy regulations	100% adherence to GDPR, CCPA, HIPAA standards

The audit, conducted by Prowative, Inc., follows the American Institute of Certified Public Accountants (AICPA) standards for attestation engagements. The results confirm that Netspective has implemented and maintained robust security and compliance controls, ensuring the highest standards of data protection, system integrity, and regulatory compliance.

2. Management's Assertion

Netspective’s management holds full responsibility for the **design, implementation, and maintenance of internal controls** that align with the Trust Services Criteria.

Management asserts that:

- ✔ The implemented controls were **suitably designed** to meet the requirements of each Trust Services Criteria.
- ✔ The controls **operated effectively throughout the entire audit period** without exceptions or deficiencies.
- ✔ Netspective remains **fully compliant** with **SOC 2, GDPR, CCPA, HIPAA, and NIST 800-53** standards.

Through this assertion, **Netspective demonstrates its commitment to operational integrity, security, and compliance, ensuring a risk-free and highly secure environment for its clients and stakeholders.**

3. Scope of the Audit

This **SOC 2 Type 2** audit evaluated **Netspective’s control measures, systems, and processes** impacting the **Trust Services Criteria**. The scope included:

Trust Service Criteria	Audit Focus Areas	Key Audit Metrics
Security	Access controls, encryption, threat monitoring, firewall configurations	Zero security breaches, 100% compliance with encryption protocols
Availability	System uptime, incident response times, redundancy measures	99.98% uptime, average downtime: 10 minutes per quarter
Processing Integrity	Data accuracy, completeness, timeliness	99.99% accuracy, 150ms average response time
Confidentiality	Data classification, access restrictions, encryption protocols	AES-256 encryption for all data at rest and in transit
Privacy	Compliance with GDPR, CCPA, HIPAA, NIST standards	100% compliance with privacy regulations

The audit included an evaluation of **Netspective’s key business units, IT infrastructure, and compliance frameworks**, ensuring a **comprehensive assessment** of its control environment.

4. Audit Methodology

The audit was conducted in strict adherence to **AICPA’s SOC 2 guidelines**, employing a **multi-layered, evidence-based approach** that included:

Audit Activity	Purpose	Findings
Interviews with Key Personnel	Assessed implementation of control measures	100% adherence to security protocols
Policy & Procedure Review	Examined internal policies and compliance documentation	All policies aligned with regulatory standards
Control Testing & Walkthroughs	Simulated security and operational scenarios	Zero exceptions identified

Audit Activity	Purpose	Findings
Evidence & Log Review	Verified system logs, access logs, and security reports	No unauthorized access incidents recorded

By utilizing a **structured and quantitative approach**, this audit ensured an **objective, high-confidence assessment** of Netspective’s security posture and compliance capabilities.

5. Audit Results

The audit findings confirm that **Netspective’s controls were effectively designed and consistently operated as intended**. The assessment of each **Trust Services Criteria** is detailed below:

Trust Services Criteria	Audit Findings	Key Metrics
Security	Controls were properly implemented, protecting against unauthorized access	100% system security compliance, zero unauthorized access incidents
Availability	Systems remained operational with no significant disruptions	99.98% uptime, 10 min max downtime per quarter
Processing Integrity	Data processing was accurate, complete, and timely	99.99% processing accuracy, 150ms response time
Confidentiality	Sensitive data was protected through encryption and access controls	AES-256 encryption in place, no data leaks
Privacy	Privacy controls complied with regulatory requirements	100% adherence to GDPR, CCPA, HIPAA

 **No exceptions, deficiencies, or security breaches** were identified throughout the audit.

6. Conclusion

Based on our independent assessment, **Netspective has successfully met the SOC 2 Type 2 requirements** for the audit period.

- **Zero findings, exceptions, or deficiencies** were noted.
- **Netspective’s control environment remains highly secure, resilient, and fully compliant with industry standards.**
- The organization demonstrates **continuous improvement in risk management, cybersecurity, and regulatory compliance.**

This SOC 2 Type 2 certification confirms **Netspective's unwavering commitment to security, availability, processing integrity, confidentiality, and privacy.**

7. Independent Auditor's Opinion

As an **independent auditor**, Prowative, Inc. has **thoroughly reviewed** Netspective's control environment.

- ✓ **Controls were effectively designed and operated throughout the audit period.**
- ✓ **No exceptions, deficiencies, or security incidents were identified.**
- ✓ **Netspective successfully met the Trust Services Criteria, reinforcing its commitment to security, compliance, and operational excellence.**

This report serves as a **strong validation** of Netspective's **secure and compliant operations**, providing assurance to **clients, partners, and stakeholders** that the organization adheres to **the highest standards of security and compliance.**
